

Five practical twilight sessions about teaching art

by Jo Hume

Each session is based on a different unit of work for use with Year 1 and Year 2 children.

The units include at least a dozen activities and techniques showing continuity and progression around a topic, together with reference to particular artists. They can be linked to form a scheme or taught separately.

Teachers and classroom assistants will accumulate a rich range of skills and understanding in making learning happen in art with young people.

brilliant art

October 10th **Seeing light and dark**

October 17th **Abstract art**
