

using art to develop emotional intelligence

A chance to experience at first hand a unit of work containing a range of activities specifically designed to encourage working with feelings, developing self confidence and self esteem.

key stage 1 & 2

learning objectives

- Understand more about emotional intelligence
- Understand how art can be used in this area
- Be able to use the unit confidently with children at KSI and KS2

Teachers will experience how children might react and think of ways in which this type of work can be supported in other areas of the curriculum.
